

DECEMBER 2020

## Celebrate Safely :30 Radio Script

### ON-AIR HOST:

If you're like me [CITY/STATE/REGION], putting 2020 behind us is a time to celebrate! But with COVID-19 worse than ever, we need to celebrate safely. Anyone can get sick, but people over 65 are most likely to die. Be the one who keeps friends and family safe this year by avoiding indoor gatherings outside your household. Host a video chat, walk with friends to see holiday lights, ring in the new year outdoors. And always wear a mask, watch your distance and wash your hands.

Have a happy, healthy holiday season!
